# Fotocard i3 Instructions

Make sure rulers are showing in Photoshop

If Photoshop does not show the above rulers you will need to select View> Rulers

Editing your chosen image to fit our Fotocards

- Once you have completed the above, open your chosen image in a separate window and crop it to: 210mm X 74mm (i3)
- Now select Image>Image Rotation> 180 degrees
- Select > Select All>
- Edit>Copy
- Now go back to the template and select Edit>Paste
- Move your image to the correct place on the template.
- You are now ready to print.
- Select the print option, select A5 Portrait and then select either Archival Matte or Ultra Premium Presentation as the media type in your print driver.
